Nicole Esther Lee

Singapore • +65 8127 5894 • nicoleestherlee@gmail.com

Computer science student who has built two small brands on social media and uses sales data to decide what to do next.

EDUCATION

Singapore Institute of Technology – DigiPen Institute of Technology Singapore
Bachelor of Science in Computer Science in Interactive Media and Game Development *Aug 2023 – 2027 (expected)*

Millennia Institute Singapore
GCE A-Levels, including Art *Feb 2020 – Nov 2022*

MARKETING EXPERIENCE

Kiko's Café – Collectible Card Shop Singapore
Co-founder, Brand & Content Lead *2026 – Present*

- Co-run a small trading card shop with my partner; I own the brand, card selection, drop themes, photography, listings, Instagram and TikTok
- Grew the business to **$1,778 revenue** and **$842 net profit** (47% margin) across 19 drops and 1,086 cards sold
- Positioned the shop in an overlooked niche, cute low-cost cards for collectors who buy for the art, instead of competing with rare-card sellers on price
- Gave each channel one job: Instagram and TikTok for discovery, a Telegram drop channel (204 subscribers) for sales, and a community chat for regulars
- Used sales data by drop to find that themed drops earned **~4× more** than untitled ones, then made every drop themed, with a teaser, a matching photo shoot and a consistent listing format

rosvpvtals – Handmade Accessories Shop Singapore
Founder *2020*

- Launched a small online store for handmade satin accessories over a two-month holiday and made **$200+ in sales**
- Set a consistent visual style and shot all product photos; Jo Malone London asked to feature one of my photos on its website
- Ran Instagram and TikTok myself, using behind-the-scenes packing videos and story-led sales to drive traffic to the store

EXPERIENCE

DBS Bank Singapore
Site Reliability Engineer Intern, Global Financial Markets Technology *May 2026 – Present*

- Automate reporting with Bash and Power Automate, including scheduled report runs and email alerts for the team
- Monitor systems and analyse logs with the ELK stack (Kibana dashboards) to spot patterns and issues early; run UAT before releases

PROJECT

Whispers of the Garden – Card Game for Children with Special Needs
Game design, video & pitch · Grade A

- Designed a cooperative card game for families, then edited the gameplay video and helped pitch it; our lecturer shared the project on LinkedIn

SKILLS

Marketing: Brand positioning, social content (Instagram, TikTok), community building (Telegram), product photography, launch planning, copywriting

Data: Sales and campaign analysis, Kibana dashboards, reporting automation

Design & tools: Figma, user research, Power Automate, Notion; Computer Science background (JavaScript, HTML/CSS, Bash)
