CONTENT & PRODUCT DESIGN PROJECTS

Makan Kaki – Group Lunch-Ordering App Oct 2026
Figma · Product design, UI copy and voice

- Wrote UI copy in English plus shared Singlish, dropping Chinese-only labels so everyone feels included
- Wrote microcopy for every state, from empty screens to pay nudges, and logged each decision with its trade-off

Polished by Pris – TikTok Merchant Dashboard (Design Task) Jan – Oct 2026
Figma, Figma Make, Claude, Perplexity

- Audited my own v1 against the brief, then rebuilt it with research, user flows and a design system
- Wrote AI suggestions that explain why they appear and leave the final call to the seller, so creators trust them

Vibe-Coded Portfolio & AI Workflows – nicoleesther.github.io Oct 2026
Claude Code, Figma AI, Figma Plugin API · HTML, CSS, JavaScript

- Vibe-coded two versions of my portfolio from one shared system, each written for a different audience
- Built AI-assisted checks that audit every page and Figma screen, and logged each defect in Figma AI's output
